

Your examination is scheduled for:

Date: _____ Place: _____
Arrival Time: _____ Procedure Time: _____
Physician: _____

Procedure:

The throat is anesthetized with a spray and the patient is mildly sedated. The endoscope is gently inserted into the upper esophagus: and a thin tube is inserted through the endoscope to the main bile duct entering the duodenum. Dye is then injected into this bile duct and/or the pancreatic duct using a flexible, video endoscope. X-rays are taken to outline the bile ducts and pancreas.

Preparation: DO NOT EAT OR DRINK AFTER MIDNIGHT

Important:

- 1. You must have a driver to stay during your exam and to drive you home.**
2. No iron containing medication for 1 week before the exam.
3. Take your regular blood pressure and heart medications before the exam.
4. If biopsies are taken, results will be called or mailed to you.
5. Stop liquids 4 hours before the exam.
6. Verbal and written instructions will be given to you and your driver after the procedure. You may not remember due to the medication given at the time of your procedure.

Please call the office during regular business hours for any questions.
405.533.1695 Monday–Friday 8:00 AM–4:30 PM

I understand the above discharge instructions and have been given the opportunity to ask questions.
